Supplemental Allowance

REASONS FOR ALLOWANCE

Examiner acknowledges a submission of the amendment and arguments filed on August 18, 2003. Claims 1, 6, 16 and 22 are amended. Amendment and arguments have overcome rejections under 103(a).

This Supplemental Allowance is issued with additional IDS items being signed.

The following is an examiner's statement of reasons for allowance:

An amended independent Claim 1 discloses a microelectromechanical device, having a rotating element including a first electrode, a second electrode and means, coupled to the first and second electrodes for measuring a capacitance between them; and means coupled the capacitance sensing means determining from the capacitance digital control state of the device. The closest references for the claim are Yokoyama et al. and Netzer. Yokoyama et al. discloses some of the elements of the claim, including a rotating element being a first electrode, a vertical stop disposed proximate the rotating element, a second electrode, a means for measuring a capacitance between electrodes and means for determining from the capacitance a digital control state of the device. However it measures the capacitance between two fixed electrodes, rather than between moving and fixed electrode. Netzer et al. discloses a measurement of the capacitance between two fixed electrodes under influence of moving third electrode. Therefore, none of the of the references teaches measurement of the capacitance

between the fixed and the moving electrode.

The same limitation in rephrased form is recited again in all other independent Claims 6, 16 and 22, thus making the case allowable. Allowability resides, at least in part, in the above-described limitations, which has not been disclosed in the Prior Art in a search.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
